Graduate Student Awards and Recognitions (2019–2025)

This document compiles awards, scholarships, fellowships, recognitions, and other honors for Physics & Astronomy graduate students at Mizzou, spanning approximately 2019 through the 2025 department newsletter. If you notice any entry missing or inconsistent, please let me know.

Contributor: David Beckwitt

Remarks: Some awards spanned multiple years or appear in multiple newsletters. Additional minor distinctions (e.g. small conference travel grants not specifically named) may not appear here unless they were featured prominently. The maintained newsletter provenance notes live in the student source index.

Recurring awards and funds

These brief descriptions summarize the recurring named department awards, scholarships, fellowships, and endowments that appear throughout the student entries. Links point to department award pages or newsletters; where the department does not publish a one-line formal definition, the summary follows the award name and how the fund is grouped on department materials. One-off external honors, society inductions, and presentation placements are left to the student entries themselves.
